

# MULTI-DISCIPLINARY CARE FOR IBD

STRENGTH THROUGH SHARED KNOWLEDGE

NOVEMBER 30, 2023 | 7– 8 PM ET | VIRTUAL VIA ZOOM

## Approach to the Management of Immune-mediated Diseases in Pregnancy

### BE PART OF THE CONVERSATION: How can you help your patients with IBD from preconception, through pregnancy, and on to post-partum?

This **accredited multidisciplinary webinar** will bring together experts in inflammatory bowel disease (IBD), including Crohn's disease (CD), and ulcerative colitis (UC), rheumatic diseases, dermatology, pregnancy, and fertility. During the session, we will take a multidisciplinary approach to explore a hypothetical patient case from initial presentation of symptoms to treatment to pregnancy and the post-partum period.

You will leave the session with practical insights into treatment choice and referral pathways for patients with complex presentations of immune-mediated disease before, during and after pregnancy.

#### Our Expert Faculty Includes:

- Neda Amiri, MD (Rheumatologist)
- Perla Lansang, MD (Dermatologist)

#### Chair: Vivian Huang, MD, FRCPC

Gastroenterologist, Inflammatory Bowel Disease Specialist, Mount Sinai Hospital  
Associate Professor, Clinician Investigator, University of Toronto  
Director, Preconception and Pregnancy in IBD Clinical Research Program

#### Program Moderator: Parul Tandon, DO, FRCPC

Clinical Associate Gastroenterologist,  
University Health Network/Sinai Health Services  
PhD Candidate, Clinical Epidemiology, IHPME, Elliot Philipson  
Clinician Scientist Trainee Scholar
